

**NATIONAL OCEANIC AND ATMOSPHERIC ADMINISTRATION (NOAA)
AND
GATEWAY, INC.**

This is a modification to the Blanket Purchase Agreement (BPA) between the named parties above. This modification implements BPA 45AANA7049917, Item number 14(a):

*“14) The following requirements are considered streamlining initiatives and may be implemented in the future, as mutually agreed by the Government and Contractor.
(a) Asset Tagging (i.e., bar code labels)”*

Specifically, the Contractor, Gateway, Inc., will:

1) Supply pre-sequenced property asset bar coded labels formatted and sized identically as the US Government Department of Commerce Personal Property property asset bar coded labels. Labels that are issued will be consecutive in sequence, based on an initial sequence control number supplied by the Government, i.e., the NOAA Personal Property Branch Team Leader.

Sample property asset bar coded label:

2) Apply a property asset bar coded label on each PC system purchased under BPA 45AANA704917. The property bar coded label will be applied at the manufacturer's facility and placed at a fixed location on each system:

- a) tower and desk models: left on the top front side of the chassis;
- b) laptop models: left on the front side of the case.

3) Electronically mail every 14 calendar days a text file to the NOAA Personal Property Branch Team Leader, subject: Gateway Asset Tag Report, address Brian.G.Mason@noaa.gov , that contains the following information:

- a) Purchase Order Number or Government Purchase Card Number
- b) System serial number
- c) Property asset bar coded label number
- d) Ship to information
 - 1) Organization (e.g., NOAA, BXA, BEA, CENSUS, etc.)
 - 2) Customer name
 - 3) Customer address (street/city/state/zip)
 - 4) Customer telephone number

For PC systems exchanged under warranty replacement: Include the property asset bar coded label number and system serial number of the exchanged system. This information can be included with the replacement system entry in the text file, or if preferred by the Contractor, as a separate text file. Identify which is the original and which is the replacement system.

4) Charge a nominal fee for this service in the total system pricing, i.e., as an indirect charge, not to exceed five (5) dollars per PC system.

5) Gateway, Inc. is hereby requested to acknowledge this modification to the agreement, by signing and returning four (4) copies to the Contracting Officer.
